## Verse 2:

Slow down, what's your hurry? There's a long, long way to go,  
 Just take it easy, take it as you feel it, just let the music flow,  
 We're goin' nowhere, this is where it happens, this is the only show,  
 So just enjoy it, both of us together, where we're heading I don't know -

## Chorus

## Verse 3:

It's getting later, it's getting darker, it's time now to beware,  
 The band is playing to a different rhythm, something else is there,  
 Can you sense, sense a little danger, there's danger in the air,  
 So come on closer, just a little closer, come on closer still if you dare -

## Chorus
